

President Biden and his Administration have accomplished much!

Demonstrated sharp, savvy intellect in negotiations:

- Confronted Republicans in the State of the Union Address to protect SSA and Medicare
- Debt Ceiling negotiations for a good bipartisan agreement

Demonstrated leadership in multiple World Crises:

- Rejoined the Paris Climate Accord to combat Climate change
- United NATO and secured critical on-going support for Ukraine as well as for European and US national security
- Support for Israel after the HAMAS attack, but also offered wise counsel for better treatment of Palestinians suffering under HAMAS

Enacted Critical Legislation:

- American Rescue Plan
- Infrastructure Act
- Inflation Reduction Act
- CHIPS and Science Act
- Veterans' Pact Act
- Appointment of Justice Ketanji Brown Jackson + historic additional judicial nominees

Results are already happening:

- \$516B in Private Infrastructure investment coupled with over \$302B in public infrastructure spending
- Over 20,000 projects funded so far with 4600 bridge projects underway, including 9 critical mega bridge projects and additional critical tunnels
- 69,000+ miles of roads already being repaired
- 58 Electric Power Grid projects in 44 states announced
- 31 Tech hubs being chosen for joint private and public development outside of tech dominant coastal cities
- Seniors now pay only \$35/month for insulin with 10 additional drugs important to seniors now possible for Medicare negotiation
- Over 4MM veterans have been screened for impacts from burn pits to gain benefits

The Economy is actually doing quite well despite consumer and media skepticism:

- Strong GDP growth since 2021 with 3 solid quarters this year
- Economists' fear of an impending recession has greatly diminished with expectations now for a "soft landing"
- Significant job growth with over 2.3MM jobs added thus far in 2023
- Unemployment is at very low levels, coupled with a historically normal Worker Participate rate
- Overall CPI Inflation is now at 3.8% and nearing Fed expectation of 2%
- And Wage increases at 4.6% are now outpacing Inflation, helping to offset the higher prices that resulted from previously high inflation in 2021 and 2022
